PROFILE

High-School Senior and aspiring Electrical and Computer Engineer with a passion for problem-solving, real workplace experiences, and everything engineering-related.

EDUCATION

Lebanon Trail High School, Frisco, Texas

Class of 2027

GPA	RANK	SAT	AP COURSES
3.972/4	36/551	1550	AP Physics1 AP Pre-Calculus
5.081/6			(AP Calculus BC AP Physics C in 2026-27)

EXTRACURRICULAR

Debate

3 hr/wk, 45 wk/yr

So/ Jr Years

- Served as Co-Leader of Membership, recruiting and mentoring new members, organizing outreach efforts, and helping grow an engaged, competitive debate team.

PROGRAMS

Internship at the Sci-Tech Discovery Center in the Makerstudio

5 hr/wk

08/29/26 – 01/3/27

- Will be teaching kids and facilitating hands-on activities focusing on STEAM activities such as soldering.
- It is a chance to engage with my community and share with them my love for learning STEAM.

Think Neuro Software Internship Program

6 hr/wk

06/1/26 – 08/14/26

- Learn how to use professional workflows including Git, GitHub, branching, pull requests, and version control.
- Built a professional digital portfolio using GitHub Pages and learned how to develop a professional resume.
- Led a team of 3 on an AI-based micro project that is able to recognize and categorize different types of trash.
- Collaborated through an internship-style development process managing tasks, making the product, and presenting it.

Sci-MI Research Mentorship

6 hr/wk

06/23/26 – 08/14/26

- Learned from a Electrical Engineering focused sector of a research mentorship program covering circuits, embedded systems, computer architecture, and scientific research methods.
- Performed an independent research study to examine the efficiency of using 3D printed heatsinks for the purpose of cooling microcontrollers.
- Used research methodology involving technical literature study, experimentation, data gathering, and analysis.

COMMUNITY SERVICE

CyberSoci3ty

Total Hrs: 43

1/26 – Present

- Founded CyberSociety with a team of 5 high school peers, a non-profit to help teach kids aged 8-14 important cyber knowledge that school doesn't necessarily teach early enough and is needed in this age of technology through online workshops of around 60 participants on the weekends.

AWARDS AND HONORS

Awards

- 2nd place Academic Decathlon Districts for science which was based on Electricity and Magnetism.
- 4th place Irving Invitational Scrimmage for science which was based on Electricity and Magnetism.

Honors

- Member of National Stem Honor Society - Over **120** hours logged towards STEM Learning Experiences.
- Member of National Honor Society (NHS) - Selected for academic excellence, leadership, character, and community service.
